Microsoft Basic Optical Mouse (P58-00008)

Microsoft Optical Technology works on virtually any surface. Easy and comfortable to use, Basic Optical Mouse is a good choice for value. Now you can experience the benefits of the world's most powerful optical technology. The Microsoft optical sensor replaces your old-fashioned mouse ball. Capturing 6,000 frames per second, it delivers up to four times the performance of other optical mouse products. This superior tracking speed translates into smooth, accurate cursor performance and it works on most surfaces. No mouse pad! The **ambidextrous** design is comfortable whether you mouse with your left or right hand. Navigate quickly and easily with the convenient scroll wheel and work on virtually any surface. Get one-click access to frequently-used features with customizable buttons.

Optical Technology – Basic Optical Mouse offers optical technology in our most affordable optical mouse.

Three Buttons – Traditional two buttons on the left and right front sides, plus a third button under the mouse scroll wheel.

Wheel Scrolling – Move through your documents quickly without having to click on the scroll bar.

Comfort for Right or Left Hand – You will appreciate the way Basic Optical Mouse is shaped for your comfort.

Connectivity: USB with PS/2
